SECTION 3 - DESCRIPTION OF SERVICE AND RATES

3.1 General Description of Rates and Charges

3.1.1 Application of Charges

Long Distance Communications Service includes recurring and non-recurring charges. Stabilized recurring charges may be offered on a Customer specific basis where service demands or competitive necessity justify such charges. Recurring charges consist of flat-rated monthly and usage-sensitive charges. Service also may include a Minimum Charge. Nonrecurring charges for installation of a service and additions to service, as well as a Termination Charge and Cancellation Charge, are also included.

(a) Non-Recurring Charges: Non-Recurring Charges are billed in advance.

(b) Recurring Charges: Recurring Charges, including usage-sensitive charges, are billed in arrears.

3.1.2 Taxes

The Customer will be billed for, and is responsible for payment of any taxes, surcharges, fees or assessments (excluding taxes on the Company's net income) imposed on or based upon provision, sale or use of the Company's services.

INTEREXCHANGE SERVICE

SECTION 3 - DESCRIPTION OF SERVICE AND RATES

3.2 Timing of Calls

- 3.2.1 Timing for all calls begins when the called party answers the call (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.2.2 Chargeable time for all calls ends when either one of the parties disconnects from the call.
- 3.2.3 The minimum call duration and additional billing increments are specified on a per product basis in this section of the tariff.
- 3.2.4 The Company will not bill for incomplete calls.

3.3 Special Access Channels

Special access channels (i.e.: dedicated facilities), if utilized, are provided and billed to the Customer by the local exchange telephone company. Charges for the special access channel are determined by the local access provider and the Customer is responsible for payment of these charges to the local exchange telephone company. The Company will, at the Customer's request, act on behalf of the Customer in the ordering and installation of the special access channel with the access provider. The Company may also request the access provider to bill them for the account in the name of the Customer. If this option is utilized, the Company will pass the charges, including a billing service fee, through to the Customer.

3.4 Quality and Grade of Service Offered

Minimum Call Completion Rate - Customers can expect a call completion rate of not less than 98% during peak use periods. The call completion rate is calculated as the number of calls completed (including calls completed to a busy line or to a line which remains unanswered by the called party) divided by the number of calls attempted.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES

3.7 Public Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.
